

# Trading Conditions and Spreads

Reference disclosure and live tenant-specific schedule for spreads, leverage, fees, lot steps, contract sizes, and execution conditions.

Tenant legal layer for PIPVera | PIPVera | pipvera.com

---

## 1. Indicative Nature

Displayed spreads, leverage bands, fees, and financing terms are indicative unless the live order ticket or contract specification states otherwise. Conditions may change without prior notice during volatility, low-liquidity periods, or provider outages.

## 2. Spreads and Fees

Spreads may be fixed or variable. Commissions, swap, funding, overnight financing, conversion, withdrawal, blockchain, or network fees may apply depending on product and payment rail.

## 3. Execution Factors

Orders can be rejected, partially filled, requoted, slipped, delayed, or cancelled depending on liquidity, market state, technical conditions, or compliance controls.

## 4. Product Notes

CFD, spot, futures, and other product classes may carry different tick sizes, leverage caps, margin models, settlement rules, expiration dates, and weekend or overnight exposure rules.

## 5. Tenant CFD Instrument Schedule

The schedule below is generated from the active CFD catalog for this domain. If a tenant applies spread overrides, the document reflects the effective tenant spread instead of the base host default.

### Forex schedule

Major, minor, and cross FX pairs for the host CFD pilot.

Instrument	Symbol	Spread	Leverage Cap	Contract Size	Lot Step	Settlement
AUD/CAD	AUD/CAD	0.00012 quote units	1:100	100000	0.01	USDT
