TENANT FRONT

Client Terms and Fees

Client-facing funding, settlement, fee, and account-control rules for this tenant domain.

Tenant legal layer for PIPVera | PIPVera | pipvera.com

1. Scope

These client terms govern retail and direct customer relationships on this tenant domain, including funding methods, account controls, pricing disclosure, and service-use expectations.

2. Funding and Settlement

Deposits, withdrawals, and wallet transfers are only valid through the methods, assets, and networks displayed by the platform at the relevant time. Incorrect network or asset selection may delay or prevent settlement.

3. Fees and Charges

Spreads, commissions, conversion, financing, blockchain fees, and intermediary costs may apply. Live product screens and order tickets form part of the pricing disclosure at the time of use.

4. Service Controls

PIPVera may restrict, suspend, or reject activity where KYC, sanctions screening, fraud review, chargeback risk, or technical safety controls require intervention.

5. Separation from Host Commercial Terms

This tenant-facing client legal pack governs end-user relationships on this domain. Host platform commercial billing terms and infrastructure-side contracts do not replace this client layer for retail onboarding or public customer use.
